## STRIPED BASS & BLUEFISH

Inshore fishing trips offer you the greatest flexibility in your schedule. Full day, seven hour trips, leave the dock at 7AM. Half day, 4 hour, trips can start morning, afternoon, or evening. Trips leave from Quincy's Public Landing / Marine Center, our dock at Town River, or by arrangement at your location. Fishing for stripers and blues is best from May to October.

## COD & HADDOCK

This is a full day, 11 hour, trip offshore; 10-50 miles. Departure is 5:00AM from Town River, Quincy. We provide all bait, rods & reels, and ice for your catch. The prime months, for Cod and Haddock, are early spring and late fall, yet run from March to October. We will find the fish from Stellwegen Bank to Jeffries Ledge. Landings typically include a small portion of large Pollock, Halibut, Wolffish, & Monkfish.

## TUNA & SHARK

This is a full-day, 11 hour, charter to Stellwagen Bank. Departure from Quincy varies between 3 & 4AM depending on the tides and time of year. We like to be on the bank for the 'First Bite.' Stellwegen Bank comes alive at first light with different species of whales and tuna feeding at the surface— a sight you will remember. Bring your camera.
